Date: May 29, 1984

Dear Hans,

With regret I confirm receipt of your letter dated May 1, 1984.

The time you have been active in the USA at ATC has been very vital for the success of the Focke equipment in this part of the world. Your continuous and never tiring efforts have helped to satisfy our customer but also have significantly supported our sales activities. The numerous visits of potential customers to ATC always resulted in positive comments about the equipment.

Your duty at ATC has never been easy. Therefore I personally admire the enthusiasm you have put into this assignment.

For your future activities our very best wishes. If we can be of any further assistance, please do not hesitate to contact us.

Thank you.

Sincerely yours,
FOCKE & CO., INC.

Dieter Neuber
